Commissioner for Patents

The response filed 5 March 2005 fails to comply with the drawings requirement set forth in paragraph 3 of the previous Office action. Specifically, applicant has argued that "the matter of the motor (400) being immovably affixed to one plate (215) and either notch/key or gear related to a second plate (220) will be obvious to one of ordinary skill". This is irrelevant as 37 CFR 1.84(h)(5) clearly states "Modified forms of construction must be shown in separate views".
